

Experience from 2 Cities

รถเก็บขยะอัจฉริยะ

ถังขยะอัจฉริยะ

App แจ้งประชาชน

ระบบจัดการการจราจรอัจฉริยะ

Lesson Learn

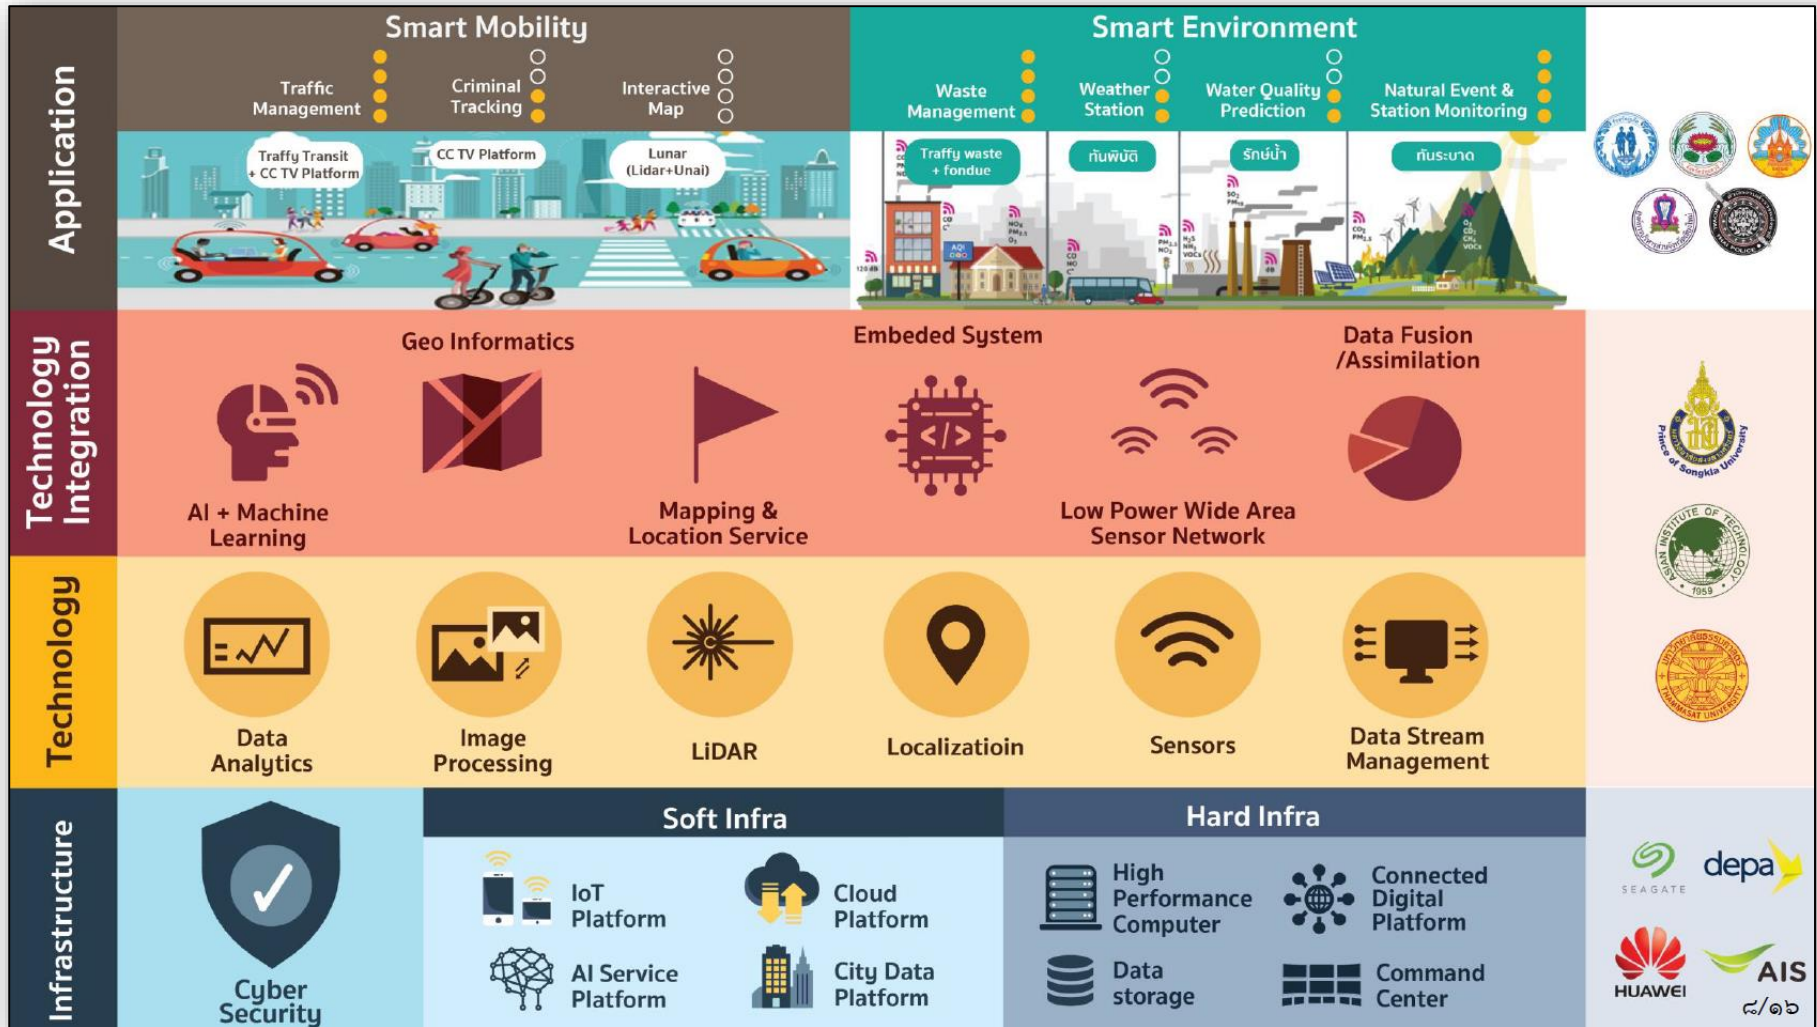

- How do we know which issues to go?
- How could we synergize relevant organizations?
- How could we connect relevant infra?

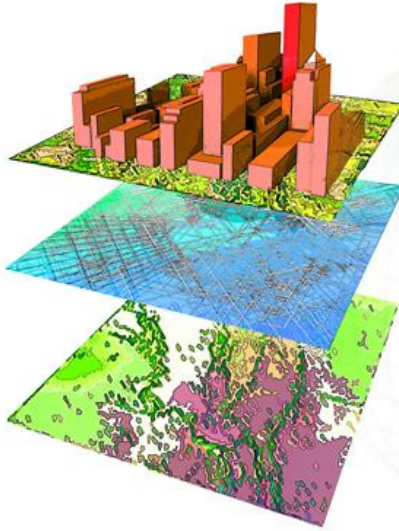

- How could we make the solutions alive?
- How could we make the solution adaptable to everlasting new technologies?

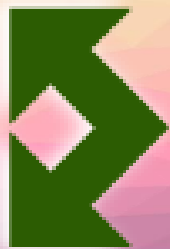

NECTEC Framework

City Data Platform

- Insightful citizen and geo-spatial data available for city analysis, planning, and innovation
- Platform for incremental data gathering and distribution

**Data
Trading
Alliance**

Non-profit organization cooperated by Ministry of Internal Affairs and Communication and Ministry of Economy, Trade and Industry of Japan, to distribute data and materialization of a data-driven society toward Japan Society 5.0
